LETTERS FROM FORT ST. GEORGE 1739

VOLUME XXIII.

No. 1

To the Worshippull James Hubbard Esq^r^.
Deputy Governour &c^t^. Council of Fort S^t^. David.

Worsh^ll^. Sir & Sirs

This comes by the Princess Mary Captain George Martin on whom we send you a supply of Packing Stuff as ℔ Invoice & Bill of Lading inclosed.

We send you herewith Copy of this ship's Charterparty to be returned hither after her Dispatch; On comparing it with the inclosed Calculate of her Bengall Tonnage you will find there remains one hundred and four 104 Tons to be supplied in Bales at your Place; and if after her Charterparty Tonnage is compleated there is room in her hold & the Captain should request more Bales at half Freight you may let him have them taking his Agreement for the freight of them in Writing to be inclosed in Your Packet to England.

When She is loaded you must take Care to send proper persons on board to see that her Compliment of Men, Guns & other Warlike Stores are agreeable to Charterparty, and the Lists thereof signed by such Persons must go in your Packet.

You must also Demand of the Captain an Attested Account upon Oath of the particulars & Value of all the Goods shipped on board as his homeward bound adventure, and transmit the same to England, You are also to see that it is conformable to the Company's Indulgence to their Commanders, a printed Copy of which we here inclose for your present & future Guide.

When you begin to send Bales on board you must give the Captain a Caution against Fire and keeping the Boats long on board with Bales in them; A Copy of such Caution we send inclosed for your direction.

Our Honourable Masters have been pleased to permit their Commanders to pay into their Cash all, or any part of the Produce of their Outward bound adventure, and to direct that certificates be granted them for the Amount, on their severally making Oath that the Money so paid in is part of their Priviledge and the Profits thereon & that they neither have taken up nor will take up other Money in India to trade with in the room of it: should Captain Martin therefore offer to pay any Money into Your Cash on Such Account you will observe the foregoing directions: Inclosed is the Form of the Certificates we grant here. No. 3

To the Honourable Jacob Mossel Esq^{r}.
Govern^{r}. &c^{t}. Council of Negapatam.

Hoñble Sir & Sirs

We had the Honour to receive the Letter you wrote us of the 7/18 of January relating to the News you had receiv'd from the Mallabar Coast of advices being Arrived at Bombay from Aleppo, that a War was near being declared between the Emperor, the Kings, of England & Portugal and the States of Holland on One side, and the Kings, of France & Spain on the other side, In answer to which we are to tell you that our Letters from Tellicherry Advise us, they had no better authority for this News than the Report of an Officer who had deserted from Bombay and taken protection under the French at Mahee. Our Letters from Tellicherry add that they had receiv'd no such Advices from Bombay though One of our Company's Ships and two Galleys were Arrived directly from thence, and this Morning we receiv'd Letters from Surat dated the 11th. December, and they also are silent about any such News. Your Honour &c^{t}. are best able to judge what Weight ought to be put upon the Letters from the Capuchin Fathers at Ispahaune, but for the advices which it is said were brought to Bombay from Aleppo, we have already told you how it came to Tellicherry, and therefore we suspend our beleif till we have it otherwise confirmed. If we receive any further advices we shall take the Liberty to communicate them to You, and we desire you will favour us with any which you receive. We have a ship now here that will sail in few days for Bengall, by which we shall forward the Packet you sent Us directed Minh. Sichterman. We are

To the Honourable John Stackhouse Esq^r^.
Presid^t^. & Gov^r^. &c^t^. Council of Fort William.

Hoñble Sir & Sirs

This incloses you Invoice and Bill of Lading for Ten Chests of silver laden on the Wakefield Henry Cleave Master. By the Mercury we shall send you Ten Chests more, and about Four hundred Candys of Tutanaigue, which the Owners have agreed to carry Freight Free, but as the ship will not go far up the River you will please to order Boats down ready to take it out. The 29^th^. December we receiv'd Your favour of the 10^th^. by the Princess Mary to which we shall Reply some other Opportunity, that ship is now Loading for England at Fort S^t^. David as the Godolphin is here & both ships will leave the Coast before the last of the Month.

The 21^st^. November we receiv'd from Anjengo Two Packets for Your Honour &c^t^. which were brought to Bombay by the Nassau and Onslow, We also send another Packet directed only to the Honourable John Stackhouse Esq^r^. but We beleive the Bombay Secretary omitted to direct it also to the Council, it being seald with the Publick seal, and we observed the same mistake in the Letter to this Place: That Letter with the Packet by the Nassau are inclosed in this Packet, and We send you Captain Cleave's Receipt for the Box containing the Packet by the Onslow. We also send you inclosed a Packet we receiv'd from the Governour and Council of Negapatam which we desire you will forward as Directed to Minh̃. Sichterman at Hughtly [*sic*] We beleive it contains some Advices they receiv'd relating to a War in

Europe, of which that Your Honour &c^{t}. may form a better judgement we send inclosed Copy of the Letter to Us from Negapatam, with our answer to which we must Add that last Night we receiv'd Letters from Surat Dated the 15th. December which mention no such thing thô a ship Arrived directly from Bussora but two days before. We are

Worsh^ll^. Sir & Sirs

It is some Days since we receiv'd Yours of the 11^th^. Inst^t^. advising the Princess Mary was Arrived with you, and that you hoped to have ready by the 25^th^. of this Month a sufficient number of Bales to compleat her Tonnage. We therefore now send you our Packet designed for England by that ship, and her loading being compleated you are to deliver it to Captain Martin togeather with his Dispatch wherein you will observe room is left for the Deputy Governour to sign and the Date to be filled when deliver'd. If the ship has room to take in more than her Tonnage and you have the Goods ready you may send them on board, upon the Conditions mentioned in a former Letter, but as the season is so far advanced we would not have her detain'd till you can Cure more Cloth or indeed any time longer than is necessary to stow the Bales away.

You must remember to inclose in your Packet to our Hoñble Masters a List of the Packing Stuff in your Bales. We are

HONBLE SIR & SIRS

Herewith is Duplicate of what we wrote you by the Mercury, and inclosed is Invoice and Bill of Lading for the remainder of the Honble Company's Tutanaigue and Ten Chests containing Eighty Thousand Madrass Rupees Laden on the Narcissus, James Maull Master.

Our Honble Masters ship the Princess Mary sail'd from Fort St. David the 27th. of last month as the Godolphin did from this Place the 28th. as your Honour &ct. sent no Saltpetre to Bombay, we hope you have been able to send us sufficient by the sloops to Kintlage our next September ship. We would not press your Honr. &ct. too much for this article, but if your stock in hand would admitt of it, It would be more ready if you could at the same time send us also sufficient to Kintlage the ship we may expect this season for the China Voyage.

We congratulate the Honble Thomas Braddyll Esqr. on his accession to the Government of Calcutta, as we compute the late President has by this time resigned it, and Wishing you all immaginable success in our Honble Masters affairs We are

FORT ST. GEORGE
2D. FEBRY. 1738 [39]

No. 13

To the Worshipfull Robert Lennox Esq^r^.
Deputy Gov^r^. &c^r^. Council of Fort Marlbrô.

Worsh^ll^. Sir & Sirs

Our last was by the Galatea under date of the 7^th^. October Copy of which comes inclosed, and having since the Departure of that ship had more leasure to peruse Your Books & papers by the George we shall hereunder Add such further remarks as appear necessary to be made thereon.

First, concerning Shipping.

We now send the George to you and have given the Master of her Charge of the Hawk a small sloop of about thirteen Tons, built at Pegue to Assist in the service of your Coast: the Account of her Cost and the stores supplied her with, you will find in the Packet; the other larger sloop is not yet finished, but we expect her by the End of April, and We propose to Dispatch her to you in company with the new ship some time in Septem^r^., do you return us the George as soon as she is unloaded, that she may be here in June and employ'd on our Coast or to Bengall as Occasion may serve, her late Arrival the last Year made even her passage to Vizagapatam dubious, the Master has therefore our strict Injunctions to make the best of his Way to Your Port, and to touch no where except by Necessity.

The Scarborough we are informed by a Letter from Captain Westcott to our President was near Achin the 4^th^. of December and his Men sickly, we fear therefore she will be a late Ship home notwithstanding the preparations you have made to give that ship a Quick Dispatch on her Arrival with you. We observe you intended to send away the Queen Caroline the beginning of October which we beleive our Honourable Masters will approve of, for the reasons you have given, and as they were disappointed of the Lyell last year.

We shall be pleased to find a due performance of your promise in the 5^th^. paragraph of your Letter of hiring no more Boats but such as are absolutely necessary to bring the Pepper over the Bars, or from such places where it may be impracticable to employ the Company's Vessels: You must remember they are a standing Charge and therefore if they are not earning something on their Accounts will not give Our Honble Masters the Satisfaction they may expect.

Secondly, Goods from Europe or Fort S^t^. George.

Concerning the Deficiency & Surpluss of stores mention'd in your Consultations of the 30^th^. June and 10^th^. July We say that had the directions sent you in our former Letters been duly put in Practice by the several persons acting in that employ, there would have been no Occasion for a referrence to us of the Case, nor indeed did we expect it after having laid down Rules so plain for your Guidance. We find the deficiencies Amount to $ 955.—.66 the Overplusses to $ 253. 1. 6 besides which there are several Articles in M^r^. Rigg's report to the Value of $ 925.—.53 to be brought to the Credit of the account so that in Reality there is an Overplus, which irregular Accounts you Acquaint us have arisen from the Deaths and frequent removals of Persons in the Employ the delivery by wrong Names and the not making the usual Allowance for Waste, Rust and other Decay of stores and we are willing to beleive as you have represented it, and do therefore for this once allow M^r^. Riggs statement and that he be not chargeable for them, but require you to be very observant in future of our orders for the regular taking and signing the Account remains on the Death or Change of any Person in their Employs.

And as to the Deficiency of stores at Moco Moco under M^r^. Savage's Care, referred also to us, when that is better explain'd and he has due credit for what have been found there since his coming away, we shall give you our opinion and directions thereupon.

By this ship We send you such part of your Indent for Wares and Stores as was not comply'd with by the Scarbrough.

The Silver and other Things mention'd in the Invoice ℔ George came out right.

THIRDLY, INVESTMENTS, FOURTHLY COUNTRY GOVERNMENT.

It's with great pleasure we observe the Crop is like to be plentifull and the Investment larger than the preceding Year. You did right in Appointing an European Surveyor of the Southern Plantations which part of the Country seems to require One; and we think it high time to call the planters of Koonkoy to an Account for their remissness and Neglect of their Gardens. We hope the reconciliation you have wrought between the Two Pangarans and their going Personally into the Country of Soongey Etam to encourage the planting of Pepper in that part and that not succeeding Coffee will have a good Effect.

If Seedee Ibrahim performs his promise of setting the People of the Eight Dussans to work in making Pepper plantations and not to conceal and Harbour the Company's and other slaves that run away, we beleive Our Honourable Masters will not disapprove of the Allowing him Ten Dollars ℔ Month, but We think no confidence ought to be put in him, as he is a Man notorious for villany and Treacherry and was the Chief promoter of the Troubles in 1719.

Since the Planters in Anacksoongey were uneasy from a Suspicion of the Old Turetoolis's wronging them in the Weight of their Pepper, we approve of your removing him and appointing another, as it is highly necessary those People should have all the satisfaction they require in that point, and be perfectly assurd that justice is done them, and you must do all in your Power to prevent any Impositions of such or the like nature whenever they are Attempted.

At those places where the pepper is taken by Measure you must enjoyn those who receive it to be particularly carefull the Planters do not mix the light or that which has been gather'd too soon, as the Company must be sufferers when it is garbled & Weigh'd off, when this was introduced, the Malays deliverd that which was Weighty and full grown, and on the Tryal then made the Company were Gainers by the Agreement, but if they fail in that you must not suffer it or any other Innovations to the Company's prejudice.

FIFTHLY, FORTIFICATIONS, BUILDINGS, REPAIRS AND REVENUES.

We observe you have fix'd on a spot to Erect the Fortification and Buildings at Moco Moco according to the Plan sent you, and we wish we could supply you with a number of usefull hands to carry on the Work, which you represent you are in great want of, but we cannot perswade any of our Artificers to go over; However in order to forward the Buildings as much as possible we now send you in the room of those destroy'd by Fire the same Number of Doors and Window Frames, and as we are upon this subject we think proper to give you a Caution not to permit such large Advances to Malay Men such as the Resident of Moco Moco made Bugginda Rajah for providing of Bricks & Chinam, we think a lesser sum than 500 Dollars might have Answer'd the purpose, and it is certainly neither safe or proper to make such Advances where there is so little security for the performance.

It appears to us a House and some Fence to secure the Company's Effects is very necessary to be immediately set about at Manna, which part of the Country we find produces now a large Quantity of Pepper, and as it happens the Bar is often unpassable that the Pepper lays there for several Months, On any sudden troubles the Company's Goods are liable to be plundered and destroy'd, the Distance from Fort Marlborough being too considerable to admit of an immediate Assistance on any such occasion and we would have you therefore lose no time in finishing what shall be judged proper for the purpose.

We acquainted our Honourable Masters last year of your want of a Number of Good Slaves to carry on your business, and it's probable you will receive a supply by the next expected shipping, If the Gentlemen of Bombay send us any for your Place we shall forward them by the first Opportunity but we beleive they will be but few if any.

We approve of the Method you have taken to secure the Company's Godowns from Fire by removing the small adjoining Houses and Tiling the Roof, as we do of the Gratuity given the Arabs for their good behaviour when the Accident happened to the Buildings; and your purchasing the two Leases where the Ground was commidious [*sic*] for the Timber Shed. It was also right to buy at Outcry the spot of Ground called Hungerford to prevent any further disputes with Mr. Jedderee's Heirs especially as it could be done on so easy Terms as 25 Dollars.

SIXTHLY, COMPANY'S SERVANTS, MILITARY AND THEIR ACCOUNTS.

We are concerned at the Death of so many of the Company's servants and in particular for the murthers committed as mention'd in your Letter, In the case of Bangseradin we doubt not but you will take such measures as are consistent with prudence and Justice.

As you do not suspect any embezelment to have been made at Moco Moco of the stores during Mr. Gee's Residentship but that they were really Expended & Used for the Company thô not duly brought to account we permit you to Write them off to Profit and Loss.

If all the Demands on Mr. Benjamin Hawke's Estate are paid we would have you write off the Ballance to Account Current Fort St. George, You must also have the Original Will proved with you and send an attested Copy of that and the Probat over to Us.

Mr. Crawford has been paid here the amount of his Bill for Sundrys sent Mr. John Innis on the George, you must dispose of his Bengall and other Goods for the most they will fetch with you for we cannot answer the Risquing any part of his Estate at Sea.

We cannot at this time send you any Military having so few Europeans on our Rolls both here and at Fort St. David, and those we may expect this year from Europe will not be more than sufficient for the service of this Coast.

We now return you Five slaves who were sent Us some Years ago, and have been Employ'd under our Carpenters, Bricklayers and Smiths, also twelve Transports, you need Credit Us only for the Charge of the Passage of the Latter, but let their names be enter'd on the Paymaster's List and Work with the Company's slaves.

The Wife and Children of Lieutenant Horne being by the death of his Attorney left destitute of any provision for their subsistance we have thought fit to allow them eight Pagodas ℔ Month from the first of this Month to reimburse which you must stop twelve Dollars ℔ Month out of his pay.

Inclosed is a Packet from the Secret Committee to the Deputy Governour and was intended you by the Lyell but that ship's voyage being altered the President & Council of Fort William sent it hither by the Anne in April last. We are

No. 14

To Captain John Taylor
of the George.

Sir

You are hereby ordered to repair on board your ship and make the best of your way to Fort Marlbrough on the West Coast of Sumatra where you are to deliver the accompanying Packet to the Deputy Governour and Council whose Orders are to direct your future proceedings.

We send them also under your Care the sloop Hawk which you must take the properest Measures to convey safely thither.

We hereby strictly enjoin you not to lose any time either going or coming by touching at any other than Your consigned Port except by absolute necessity.

On your return to this Coast you must call in at Fort S^{t}. David to bring hither what Bales the Deputy Gov^{r}. & Council may have ready there.

No. 15

To Charles Simpson Esq^{r}.
Chief &c^{r}. Council of Vizagapatam.

Gentlemen

Since our last of the 28 October we have receiv'd your severals of the 12th. October 5th. & 24th. November 11th. 23th. & 26th. December and 9th. January.

By the Brigantine Jenny that brings this We have laden the Wares and Stores you Indented for, as ℔ Invoice and Bill of Lading Inclosed.

And M^{r}. Sanderson having desired to stay here we have appointed M^{r}. Charles Simpson Chief of Vizagapatam who also takes his Passage on the Jenny Brigantine, and We have sent by him Twenty Thousand New Madrass Pagodas and 6668. –. –. Madrass Rupees, Invoice and Bill of Lading for which are also Inclosed.

As M^{r}. Simpson resided many Years at Vizagapatam and is perfectly well acquainted with the Country about it we hope he will be able to contrive some means for making an Investment there, whereby that Settlement may no longer remain a dead charge upon the Company's Estate.

With regard to the sorts of Cloth and the Prices we referr you to our Letter of the 31st. March to which we have only to add that it is a Complaint from Home repeated more than once, that the Vizagapatam cloths do not hold out the Invoice Lengths.

As fine cloths are in demand at the Europe Markets, it would be an acceptable service to our Honble Masters if you can get your Weavers to make any in your Parts that is of a round hard twisted Thread, for a Tryal we would have you Provide this Year One Thousand Pieces of about Sixty five Pagodas the Corge but send it Us Brown that it may be cured here.

We very earnestly recommend to you that you give all the Encouragement in Your power to the Trade of your Place, and that you allow all Persons without distinction a full Liberty in that Respect agreable to the priviledges granted them by our Honourable Masters, a Freedom in that and a due administration of Justice seldom fail of drawing a great Resort of Merchants to a Place where there are not otherwise some natural

Impediments and we are willing to flatter ourselves the Situation of Vizagapatam is such as will admitt of considerable Improvements if those at the Head of Affairs there would heartily endeavour it; It's a mistaken and a narrow way of thinking to imagine that what we see another get is gotten from ourselves, Few Great Fortunes are obtain'd but in Places of considerable Trade, and therefore it is your own Interest to encourage that as much as possible, and we know no method more Easy and Effectual than what we have already mentioned, which We press more earnestly to you in hopes that some Men of Fortune may be enduced to settle in Vizagapatam who may be willing to Enter into Contracts with you for the Company's Goods, as We fear the smallness of the Investment there has in a great Measure proceeded from a diffidence and distrust of the Merchants if any of the Inhabitants may be called so that reside there at present.

Having been represented to us that there is a House at Your Place standing to the Westward of the Fort which would be very convenient and necessary for receiving the strangers that belong to the shipping, as well as the Moors and People that come out of the Country, which it is not so safe to do in the Fort, and that the same may be purchased for Fifteen hundred Rupees, we permit you to buy it at that Price. HOÑBLE SIR & SIRS

The 21st. November we receiv'd Your favour of the 10th. September accompanying the Packets from England for this Place & the Bay.

We were very glad to read you had a Prospect of so good a Crop of Grain that the Landing the Rice here designed you by the Lyell would be no disappointment to you, and as for the Saltpetre and Rawsilk we doubt not the Gentlemen in Bengall took care to supply you from thence as it might be with you as soon as if we had sent you the Lyell's from hence.

Our Honourable Masters ship the Godolphin arrived from Canton the 22^{d}. December and as We understand the Prince of Wales had procured a good quantity of Pepper at Benjar We are Willing to flatter ourselves the Marlborough would meet with the like success there in which case it is not likely that ship will come upon your coast.

The Princess Mary sail'd from Fort S^{t}. David the 27th. January and the Godolphin from this place the 29th. We have only to add our Wishes for your success in our Hoñble Masters affairs and are

No. 27

To the Honourable Thomas Braddyll Esq^r.
President & Gov^r. &c^t. Council of Fort William.

Hoñble Sir and Sirs

Since our Letter of the 2^d. February We have been favoured with Your severals of the 7^th. January with the seven Bales of Sanoes by the Pegue Merchant, 27^th. February by the sloop Calcutta, 6^th. March by the William sloop, and by the Narcissus two others of the 6^th. and one of the 7^th. March.

We wrote Your Honour &c^t. a short Letter by the Sarah Gally to accompany six Chests containing Forty Eight thousand Rupees, and this comes by the sloop Calcutta on which we have Laden Rupees, Bullion, Broad Cloth and Redwood, as ℔ Invoice and Bill of lading inclosed amounting to Pagodas 40498. 8. 25. By the William sloop We shall send You a further supply of silver and Redwood, but we must order her into Vizagapatam to land some Money there for the Use of our Northern Settlements.

Your Honour &c^t. have very justly remark'd in Your Letter of the 10^th. December last, that the two sloops built for our Hoñoble Masters in Pegue are extravagantly dear. For your better satisfaction in the particulars of their Expence we send in this Packet Copies of the several accounts received from thence, to which we shall add, that when we received them last year we made the same remark then which you have done now, but without other Benifit to the Company than resolving to build no more for them in Pegue & whenever their affairs may require it in future to desire it may be done at Bombay, from whence we expect this Month a small ship for the service of the West Coast, and which we desired might be built at Bombay in January was twelve months upon receiving the accounts of the Cost of Your two sloops at Pegue when at the same time we were told that which was sent You from Bbay with her loading of Cotton included cost but Ten thousand Surat Rupees. We

wrote last Year to the Resident Complaining of the Expence and you have inclosed his answer; We are indeed asssure[d] they are very strong Good Vessels, and the Timber and plank made use of exceeding Good being surveyed before and after it was cutt up, but there is another Reason why it will always be Dear Building small Vessels there, and that is they are incapable of bringing over any considerable Gruff Cargo without the profit on which the Expence would be intollerable in building ships of more considerable Burthens. We have lately received two sloops built at Pegue for the service of the West Coast, which came out in proportion as dear as those built for Y^r^. River, but we had given directions for them before We knew the Cost of Yours.

We have only to add that in February last We received from Pondicherry your favour of the 26^th^. Jan^ry^. inclosing M^r^. Thomas Joshua Moore's Bill of Exchange on M^r^. Nicholas Morse for seven thousand Current Rupees which is accepted and paid and for which we have given Credit to your account with Us. We are

By the Princess Augusta we received Yours of the 3^d^. Instant inclosing Invoice & Bill of Lading for Cloth sent us on her, and by peons your other of the same date, inclosing your Indents for stores &c^a^. which shall be complied with as opportunity offers.

Having enter'd into a Contract here with Gopaul Chitty to furnish the Company with some Long cloths, and as the Major part if not the whole will come through your Bounds, We give you this Notice that you may pass it through the Mettahs as usual. As our Merchants bring in Cloth but slowly here we should be glad you could engage Yours to increase the Quantity with you, and if in order to that it should be necessary as we beleive it may, that the Advance in their hands should be encreased and you are of opinion they may be trusted therewith you have our permission to make such further advance to them in Money as you think proper.

We would likewise have you try to engage your Merchants to provide some Fine & Middling Long Cloth, both which will be very acceptable to our Honourable Masters, we send you no Musters, but would have you try what you can get at seventy five Pagodas ℔ corge the Fine, and 45 the Middling. When you have got Two or Three Hundred Pieces of each sort send us a few pieces hither that We may see how it proves.

It is some Years ago that we began to make some Soot Romals here, which were well approved at home but Indigo having of late been very dear in this part of the Country besides that the Weavers have gone off much from their first performance, we have resolved to send you the muster out of the Warehouse, and would have you provide Five thousand pieces upon the best terms you can procure them. The muster is only to shew you the goodness of the cloth, and the brightness of the Dye which last may be mended with you, and you must direct the Weavers when they make them to vary the checks that they may not be too many of one Pattern, and there must be no mixture of Red in any of them.

We have receiv'd our Honble Masters permission for your Building a new powder Magazine according to the Plan you sent us in September 1737 and which we sent them in the Packet by the Royal Guardian, you are to erect it on such a spot of Ground as is best situated for the purpose it is designed, and not to exceed the Estimate in the Expence.

For the future all you[r] Bale Goods Ordinary as well as Fine must be packed in Wax Cloth.

Gentlemen

Our Honourable Masters having advis'd us they should direct you to put on board their ship Duke of Lorrain a Quantity of Tea as far as Two thousand Pecul We have given the Supra Cargoes of her orders to receive the same of you and as We have calculated her Cargo on a Supposition, that you will put that Quantity on board and shall also make provision for her Voyage to Europe agreable to that supposition. We request you will not disappoint us thereof.

The orders we have receiv'd from our Hoñble Masters relating to that ship's return from Canton are so strict that we cannot venture to give the Supra Cargoes any Instructions which may be interpreted into a Liberty to stay later in China than the middle of November but as it is now so late as the 13th. July and that she must go far to the Eastward to secure, thô she thereby lengthens her Passage to Canton, as she is also liable to meet with a Tuffoon and consequently may be really unable to return so soon, We therefore desire of you Gentlemen if you find she cannot get away by that time, that the Tea You put on board may be all Bohea, because should she come here too late to be Dispatched in the season to Europe that sort keeps much better than the Green. We have nothing to trouble you with further but our wishes for Your success in our Honourable Masters and Your own affairs and an assurance that We are

No. 60

To Captain William Crompton &
Mr. Charles Beard.

Gentlemen

Herewith We deliver you Invoice & Bill of Lading for the Cargo We have put on Board the Duke of Lorrain for account and Risque of the Honourable United Company of Merchants of England trading to the East Indies, amounting to Pags. 40,981.23.75, which We have consigned to you to be disposed of at Canton. We doubt not but you will exert your best endeavours to dispose thereof to advantage and to procure the returns hereafter mentioned at reasonable rates, you are to draw the usual commission of five ℔ Cent on the Sales in China which is to be equally divided between you.

For a returning Cargo though We greatly fear Tutenague will not produce above twenty six pagodas Pr. Candy you must nevertheless make that the principal

article of it. Sugar, Sugar Candy, Allum and China Ware, will not We beleive yeild prime Cost besides that they employ very little Money and will put you to the necessity of buying more Gold than you will need to do if you lay Your Money out in Tutenague, Not but that if you find Gold at one hundred and Ten or under and the above articles at such Rates as will answer bringing which by the annex'd Price Current you will be able to judge, you will do well to bring a part of Your returns in those comodities. As to Quicksilver You must not bring above One hundred Peculs of it supposing it may be procured for Eighty Tale or under, but if it be above that Price bring only fifty Peculs, nor any at all if it be higher than ninety five.

For the remainder of Your stock if there be any You must lay it out in Gold at the cheapest rate but take great Care in the Touch. You are to bring two thousand Peculs of Tea which the Company's Supra Cargoes at Canton will put on board, and You may receive of them the Tale & a half ℔ Pecul, which our Honourable Masters allow for the Freight if you find You can get any thing by laying it out in Gold or want it to pay for the other part of Your Lading but otherwise you must leave the freight to be charged here.

You must deliver to the Supra Cargoes of Two of the Company's ships bound home from Canton a Packet containing your accounts of Sales, Invoice and account Current as also a Letter to the Honourable Court of Directors, with an account of all Your transactions in the discharge of this trust directing the same to the Honourable the Court of Directors for Affairs of the Honourable the United Company of Merchants of England trading to the East Indies at their House in Leaden Hall Street London.

We are expressly order'd by our Honble Masters to forbid you to carry any Ophium or to bring or suffer to be brought any Camphire or other strong smelling drugs in the ship least the Tea should be damaged thereby and the Captain must take Care the Tea be stowed on the Dryest part of the ship.

Our Honourable Masters write us that if the Round about ship be not Returned to them the same Season the Voyage must prove a loosing article to them and earnestly recommend the compleating that ship's Business in Canton in October or the beginning of November. To which we can add nothing but to tell you these are their own words and are to be observed by you with the utmost exactness. We confess your late departure from hence will streighten you extreemly for time at Canton but as We have used the utmost Diligence in unloading and reloading Your ship We can only hope You will meet with better success in Your Voyage to China than the ship had in her passage from England to this Place. And to that end We order you to proceed directly from hence to the Port of Canton and when you have compleated Your Business to return from thence hither again without losing any time at Malacca or elsewhere.

We have sent Mr. Richard Stephens Purser of this Ship and Direct that in case any accident happens to either of you, He do assist the other in the management of the affairs of this ship and on his return We shall reward him in proportion to his service.

When you have Compleated Your Business at Canton (in Case of Captain Crompton's Death) you must give Sailing Orders to the Commander for the time being directing him to make the best of His way to this Port.

We give you herewith Copies of the accounts of the Sales of the Godolphin's Cargo & her Invoice back with the account Current in Canton which We beleive will be some direction to You and hereunder you will find the Prices we beleive You may expect for other China Goods. We are

We wrote you last by the S^{t}. Joan to accompany some Redwood, and We designed this ship to you sooner but have been prevented partly by a troublesome surff which has hindered our Boats working and partly by the late arrival of the Red Wood Boats from the Northw^{d}. We now Dispatch her to you with Thirty six Chests of Rupees and four of Bullion, also some Redwood as ℔ Invoice and Bill of Lading Inclosed.

This Ship Shaftesbury took in for this Place

1312, slabs . . . . . p^{ze}.	1992.	2.	1,	Delivered short
4, slabs . . . . . p^{ze}.	9.	—.	23,	which the Captain promises to deliver to you or to pay for the same.

We shall give you Credit for the Two Rupees short in Tale in the Money sent ℔ Sarah Galley and Calcutta sloop, and so We shall for the Tutenague short deliver'd by the Narcissus, when We have settled that matter with her Owners; But we are very much surpriz'd at so great a difference in the Weight, as it was weighed off directly from the China Ship by the Supra Cargoes without passing through the Hands of our Conicoplys.

We shall by some of the ships in August advise y^r. Honour &c^t. what number of Bales We expect to have ready here by Christmas next, that You may supply us with Tonnage accordingly, and in computing the value, if you set them at Eighty Pagodas a Bale one with another it will be as near as can be Calculated.

Inclosed are the Shaftesburys Charterparty and Manifest of Goods landed here from her.

We designed the foregoing the 18^th. and Yesterday arrived our Honourable Masters ships Normanton & Grantham, they left Portsmouth the 11^th. March in Company with the Prince William, Lynn, Houghton, Somerset, Warwick and Augusta. The Richmond had left the Downs in December but being somewhat leaky put back to Plymouth in order to refit, she was repair'd in few Days but lay so long there windbound afterwards, that the Captains of these Ships tell Us they beleive she only left Plymouth at the same time they did Portsmouth, as we had before beleived she had been some time with you in the Bay We had designed the Major part of the Treasure by this ship Shaftesbury to be in Rupees, but as it is now not unlikely she may be with you before the Richmond, We have altered our Intention & have put thirty five Chests of Bullion and but five Chests of Rupees on board her, for this reason that you have in a former Letter desired that your first ship might bring her Money to you uncoin'd. To Charles Simpson Esq^{R}.
Chief &c^{T}. Council of Vizagapatam.

Gentlemen

We have to answer your severals of the 4th. and 15th. June, in answer to the first We have only to say That after so great danger as the Sea horse was in We are very glad You have got the Money we sent by her safe at Vizagapatam and approve of the small present you sent the Phousdar of Itchapore.

By This Ship Princess Augusta We send you a further supply of twenty thousand Madrass pagodas and somewhat more than thirty thousand Arcot Rupees as ℔ Invoice and Bill of Lading Inclosed.

We also send you twenty Candy of Iron and a further supply of packing stuff, and for so much of this last as may be more than you want for your own Use it must be sent to Ingeram, the Gunneys from all the Northern Settlements being much complain'd of from home as well as the Wrappers.

When We wrote you the 14th. May We intended this ship should first have taken in the Cloth at Ingeram and afterwards have come to You but having since resolved to send the Money on her, We have thought it more proper she should go directly to Vizagapatam, where you must keep her no longer than is necessary to take in what Cloth you have ready & then Dispatch her to Ingeram to take in the Cloth there but you should previous to that concert with M^{r}. Prince what place will be best for the ship to lye at, and for the Conveniency of shipping off the Bales, The Outsets from

the Rivers being very dangerous and troublesome at this season of the Year. We wrote him before on this subject, and were rather inclined to have the Goods sent into Your Road by some of the Country Vessels, and laden on the Ship there, but he wrote us there was no proper vessel in Ingeram River, and therefore gave it as his opinion that Caranga would be the best and safest place for the ship to ride at, and most convenient for shipping off the Bales. When you dispatch her to Mr. Prince give the same orders to him as We have to You, namely that upon no account to detain her longer than is necessary to take in what Cloth he has ready, for after she arrives here, We must send her to the Bay.

We have before given you directions to provide Us One thousand pieces of Fine Long Cloth, it will be very acceptable to our Honourable Masters if you can increase that quantity and so it will if you can provide them any Fine Sallampores in your Parts, and for the Quantity we say send us and [*sic*] many as you can get. The 3^{d}. Instant we receiv'd yours of the 31st. Ultimo and two days ago sent you a supply of twenty thousand Pagodas for your Cash; We shall now reply to what you write us relating to Nanjan Chitty, his having taken Farm of the King of Misore for the coining of Fanams and making cloth at Salem and his Intentions of raising the price of both; Your advices agree perfectly with what we heard some time ago from some of our own Merchants, but we could give them no directions upon it further than that they should act in concert with yours to oppose it, and to let us know before they complied with any such imposition; We think from the nature of the thing it cannot last long, the Weavers as well as the Merchant will be too uneasy under so great a Greivance, At Present our Merchants assure Us they confine themselves chiefly to Warriarpollam, and have not lately done any thing at Salem, but as Cloth comes in but slow from Warriarpollam they also are pressing us for Directions, how they are to act in Salem. We are sorry to read by yours that any others have complied with Nanjan Chitty's exactions, but as We have no reason either to hope or expect, that we shall get cloth cheaper than other European Nations, if you really find after Your best enquiry that they really have submitted to his terms we know no remedy but to submit to the necessity of the times, but as you are so much nearer to those parts than We are and many sudden turns may happen wherein it may be losing much time to wait for directions from hence, We have resolved to leave this affair to Y^{r}. We have receiv'd Your severals of the 22^{d}. May and 8th. June accompanying your Packets for Bombay, which We sent forward few days after We receiv'd them.

This is to accompany two Packets We received Yesterday by the Galatea from Benjar one directed to our Honourable Masters, the other to the Supra Cargoes of such ship as may be bound to Benjar next Season to be left for them at the Cape of Good Hope, which as we Dispatch no ship from hence in September we send to you in hopes they may reach you in time to send by the Defence.

By the Galatea We are advised the Marlborough did not arrive on the West Coast till the 5th. December last, she had buried several of her Men in the Passage, and the rest were so sick and weak she could not proceed to Benjar till the 1st. or 2^{d}. of February where she arrived the 11th. of March; The 15th. April arriv'd there also the Walpole Captain Boddam, what Pepper had been purchased for the Marlborough was put on board the Walpole and the Marlborough was to wait for the next crop which probably would detain her till October or November.

Our Honourable Masters ships that have arrived here this season from England are as follows.

No. 80

To the Worshipll. James Hubbard Esqr.
Deputy Governour &cᵗ. Council of Fort St. David.
Worshll. Sir & Sirs

A few days past we receiv'd yours of the 14th. and observe therein the Complaints made of two of our Merchants namely Ponapa Chitty and Gopall Chitty, particularly of the last, who is son of Custoora Chitty a Tritchanopoly Merchant, residing in Your Bounds, we have taken pains to enquire into the truth of said Complaints and for that purpose have had both those Merchants before us in Council: as to Ponapa Chitty he tells us, that his Gomastas bought some Cloth last year of Nanjan Chitty, but he declares positively that since then the said Nanjan Chitty has not provided any Cloth for him nor have his Gomastas bought any of him and indeed we have pretty good reason to beleive any thing he has done this year can have been of very little prejudice to any body. He shews us indeed a Letter from Nanjan Chitty inviting him to employ him in the purchase of cloth which there could have been no occasion for nor for the orders Nanjan Chitty sent to Ponapah Chitty's People not to Pay any more money to the Brokers for Cloth if Ponapa Chitty had before Yielded to his Exactions and settled with him to allow him 2 or 2½ Pagodas ℔ Corge.

As to Gopall Chitty he also shewed us a Letter which he receivd three days ago from Nanjan Chitty inviting him to employ him in providing cloth, but He assures Us he neither has, nor designs to comply with his request: That the five thousand Pagodas he sent to Salem was to his three Gomastas namely Raja Veraugo Chitty, Kistnama Chitty and Rangapa Chitty, and the directions he sent them with the money was to go hand in hand with the Gomastas of the Fort S^{t}. David Merchants; He adds that he will not answer for any thing that Sashachilum may have acquainted Nanjan Chitty with, but for himself he has no correspondence with Sashachilum, and having his own Gomastas at Salem he could have given them orders to have acquainted Nanjan Chitty with any thing he thought proper without being under the necessity of doing it by the means of Sashachilum, and as to what you write us of Sashachilum & your Merchants not knowing that he provided any Cloth at Salem it is to us very surprising, because Molinga Kistnama Chitty who is one of our Merchants and a Relation of Sashachilum has often had cloth from Salem, which was provided by Sashachilum's Gomastas. Gopall Chitty being examined further about his People being privy to the agreements made by your Merchants Agent with Rashapa at Warriarpollam for twenty Ox load of 8 Caul Cloth at 39 Pagodas ℔ Corge and afterwards offering the same Broker 39½ for it, he replied that he could not positively say it was not so, till he had wrote about it and received an answer, but he beleived it was of a Piece with the other Informations you had receivd as having given positive orders to all his People not to advance anything in the price above the Fort S^{t}. David Merchants nor to take in any Cloth which they refused: Upon the whole if what our Merchants tell us be true there is some reason to apprehend the stories which have been brought you proceed from some Disgust and Ill Blood between your Merchants and ours in which case there is nothing more easy than for Letters to be wrote and Peons sent express as from the Country when neither one nor other were ever out of your Bounds or both may be sent from the Country by directions first from Fort S^{t}. David: We don't say this really is the Case, but is what you ought to guard against for you have some near Neighbours who will know how to take all advantages of any Divisions among our People and will not be wanting to foment it to the utmost of their Power: We should be very glad to Employ but one set of People in the providing cloth to the Southward and if your Merchants would have enter'd into larger Engagements we should have set down contented here with the little that is procurable in this part of the Country but the Company are very uneasy at the large Investment made by the French in your Parts and expect to come in at least for an equal share with them and We know no way to answer those Expectations, but by Agreeing with our Merchants here for so far as yours may be deficient: We agree entirely with you that if there be but one seller at Salem, it must of necessity occasion the Cloth to grow dearer or worse, but we don't apprehend it will be mended much by there being only one buyer, for our Company if at the same time there are many different buyers for the other European Nations, but however that be We cannot take upon us to direct your Merchants how or where to provide their Cloth, that is a matter which must and ought to be left to themselves and all we expect from them is to have it as good and cheap as our neighbours.

If your Merchants bring you any further Complaints of Gopall Chitty, as Custoora Chitty lives in your Bounds, you may enquire into those complaints by calling him before You, which will save You the trouble of writing up here about them.

During the present unsettled state of the Country we have given M^{r}. Hubbard our Directions to entertain as many Topasses and peons as he shall judge necessary to the Defence of your Bounds. We are

No. 81

To the Hoñble Thomas Braddyll Esq^r^.
President & Gov^r^. &c^r^. Council of Fort William.

Hoñble Sir & Sirs

The Somerset carried you our last of the 12 August. The Warwick followed that ship the 18^th^. This by the Normanton and Grantham is to advise that We have laden on each ship Two hundred and forty Thousand Rupees besides Redwood as ℔ the several Invoices and Bills of Lading which come in their respective Packets. By the Lynn we shall send you Twenty Chests of Treasure more part Rupees and part Dollars. We have kept as near as we could to the directions you sent us to Coin no more than one third of the Treasure designed for your place, but One hundred chest of the Silver receiv'd this year was in Barrs, of which we have twenty two remaining here, that We keep for sale to supply our own Cash, except we have any considerable sum paid in for Bills of Exchange in January ; In that case we shall coin it into Rupees and send it to You if Your Occasions require it.

We are now to advise your Honour &c^r^. that besides what Bales we shall have for the dispatch of the Duke of Lorrain, We hope to have Two thousand four hundred more to fill up such ships as you may send us in December. But in regard our Investment is subject to many Accidents and disappointments, We desire you will send us about One hundred Tons of Salt Petre to compleat their Tonnage in Case it should happen that we are not able to do it in Bales. We are also to desire your Honour &c^r^. will Dispatch the ships early to Us in December that we may if possible get them away by the middle of January being very averse to keeping them later if it can be avoided. As the full moon falls this year on the 4^th^. December we hope there will be no danger in their coming out of the River as soon as that is over.

Inclosed is our Indent for packing stuff, as to saltpetre besides the hundred Tons requested above, We are to desire you will supply us with as much more as your other necessary occasions will admit of for the Company have observed that for years past our quantity on hand has been so scanty that we have seldom been able to load more on their ships from hence, than their Kintlage and therefore are desirous that we should have always lying in our Godowns four or five thousand Bags by which means they would reap the benefit of having it home at half freight and they add would answer very valuable purposes in other respects.

We send also inclosed the accounts Current between the two Presidency's with our Accomptant's remarks on the difference between yours and ours to which We beg leave to referr. This ships Charterparty and an account of Goods landed here from her come also in the packet.

TO THE WORSHIPFULL JAMES HUBBARD ESQ^{R}.
DEPUTY GOVERNOUR &C^{T}. COUNCIL OF FORT S^{T}. DAVID.

WORSH^{LL}. SIR & SIRS

We have receiv'd your severals of the 3^{d}. 4th. & 5th. Instant and one of the 3^{d}. from the Deputy Governour. The hopes you have that no occasion of complaints will happen for the future from the conduct of our Merchants, in the measures they take in providing cloth, makes it unnecessary for us to say any thing in reply to great part of the first Letter. We receiv'd by the Sloop Carolina the Musters you sent us of the French Fine Cloths and have compared them with our Musters here: The observations We make on them are that they are neither so well made nor so cheap as those sorts used to be, but we are sensible that is the fault of the times, and though our Merchants did last year bring us in better for the money, yet they lost so much by it, and could not be prevailed on to bring in near so much as they promised, and thô we are upon another footing this year we apprehend they will nevertheless bring in far short of our wants and therefore We would have you engage your Merchants to bring in as good and cheap as they can, all they can get between this & January of the Ten, twelve and fifteen Cauls cloth; The Company demand so little of the Eighteen Caul Cloth, that We think we shall be able to get the whole quantity here and We think also better and cheaper than your Muster.

The Deputy Governour having in his seperate Letter represented to Us the necessity of entertain^{g}. an hundred Topasses more, and that there is between the N. E. Bastion of Cuddalore, and the river side, a space of about two hundred and fifty Yards which lying entirely open it would be impossible to prevent a party of Horse from pushing into the Town, and which might be render'd of greater security by a Breastwork of Earth with palisades and a little Earthen Redoubt for three Guns near the River side, we have resolved in considerations of the Present state of affairs in the country to Consent thereto.

We have receiv'd your Indent for stores & shall supply you with all that our own scanty stock will admit of: We have no Europe Powder, but shall send you Five Candy of Country, nor can We send You any Flints, Musquets or Cartouch Boxes, the latter We are making as well as We can here for our own Use.

Having no Covenanted Servants that We can spare you from hence in the room of M^{r}. Mitchell we permit you to entertain M^{r}. Thomas Cooke Jun^{r}. as a Monthly Writer at ten Pagodas ℔ Month.

We have already told you we cannot spare you any Musquets, but we will send you an hundred Buccaneir Pieces, which may serve in case of necessity, if you have no use for them, you may return them to Us, when the Country is again settled.

We referr you to what wrote ℔ Normanton Triplicate of which is Inclosed, relating to the Number of Bales we should have ready for the loading of such ships, as you might send us in December, but as it may happen the state of your own Investment may require a larger Tonnage than our Honourable Masters have provided, you may in that Case send us only Tonnage for sixteen or Eighteen hundred Bales, and so omit the saltpetre if your stock on hand is but small, thô otherwise we should be glad to have a quantity by us as it may be of Use upon some other occasion.

To the Hoñble Thomas Braddyll Esqr.
President and Govrnour of Fort William &cr. Council.

Hoñble Sir & Sirs

Our last was by the Arlington of the 10 & 11th. Instant; this waits on you by the Richmond.

Yesterday arrived here our Hoñble Masters ship George from Fort Marlborough, where the Britania Captain Somner arrived the 13th. July, by her We are advised of the arrival of the following homeward bound ships.

Arrival.	bound ships.	Saild for Europe.
27 Novemr.	Wilmington	3d. January
18 Decemr.	Hallifax	
19 February	Queen Carolina	4th. March
Do.	King William	13th. Do.
22d. Do.	Beaufort	
7th. March	Royal George	
9th. Do.	Lyell	
22d. Do.	Onslow	

The Recruits we have receiv'd from England this year, not being sufficient to make up our ordinary compliment of Europeans, and as we apprehend our present number will be still less in December if any of the Homeward bound ships should be in want of Men, for in that case the temptation of Impress & pay homeward bound, induces many of our Men to request for their Discharges, which otherwise they would not think of or desire [if] they were to work for their Passages Home. The Duke of Lorrain lost many Men in her Passage out, and therefore the Captain will doubtless be for Impressing as many others as he can; We are therefore to desire your Honour &ct. will endeavour to List forty or fifty Europeans, to serve as soldiers here or at Fort St. David: We do not mean to lessen your own force, but we are told you have often an opportunity of Picking up a good number in the Bay, which if you should have this year, We desire you will send them to Us, on the Europe ships, and perhaps the charge of recruiting this way, will be cheaper to the Company than by their ships from England.

Inclosed We send you an Indent for the West Coast, which if it arrives with you before the Somerset sails, We desire you will please to comply with and lay the former List aside as useless. We are

Worsh^ll^. Sir & Sirs

By the Galatea who Imported the 8^th^. August we receivd Your Letter of the 31^st^. December with one from M^r^. Hurlock at Tatas of the 13^th^. June, and the George who came in the 15^th^. Instant brought Us also Yours of the 15^th^. of the preceeding Month, with Your several Books and Papers, to which We shall give full answer in January. [This you] will receive by the sloop Carolina, built for the service of your Settlement, she arriv'd with us from Pegue in April and We have kept her to this time that she might go to you in the proper season: Inclosed is a List of her stores, and an account of her Impress; you will find her Burthen exceeds what you mention'd to us, she being full sixty Tons, and esteem'd a strong Good Vessell. The Master of her M^r^. Cardigan Richard Dutton, has desired Us to acquaint you of his being inclined to return to the Coast by the first Opportunity, which you will grant him liberty to do on his request.

We have sent you all the Nails we have of the sort you Indented for, with some other Articles as ℔ Invoice accompanying this amounting to Pagodas 109. 5. 24, as we design the Princess Augusta for your Coast in January We shall lade on that ship the remainder of what you have wrote to Us for, with the White Long Cloth, this Vessel having but a single Deck is not so proper a Conveyance as the other for Carrying Bale Goods.

We have desired the Gentlemen of Bengal to send you by the Somerset the Particulars contain'd in your Indent which are procurable there, she sail'd from hence the 15th. of August for that place.

The Walpole was to leave Borneo the middle of July, and Mr. Hurlock acquaints Us he beleiv'd with about 3000 pecul of Pepper; The Marlbrough was to stay for the next crop, so that it is probable she would not get away before October or November; When Captain Mylne came away that ship had no part of her cargo ready, and Pepper was so scarce that the Supra Cargoes of the Walpole desired Captain Mylne to deliver them on the Company's account even the 350 Pecul he receiv'd for a Debt of last years, and what you gave him Liberty to take on board, so that he brought none to this Port.

For the reasons given in your 61 par. We approve of the Appointment of Mr. Henry Sterling to succeed Lieutenant Horne decd. in the Command of Your Second Company of soldiers.

We shall endeavour to send you some Arabs in January, at Present there are none in Town.

The Account of Goods licensed to be laden on this sloop is Inclosed.

We wish her safe to you and are

The Richmond sail'd out of our Road the 20 Instant and carried you our last of the 19, Duplicate of which is inclosed.

We intended this ship Princess Augusta to you much sconer, if she had not been detain'd to the Northward longer than we designed or expected, however as she has the Character of a Prime [Sailer] We hope she will arrive with you in time to be return'd to us again in Dec^r^., when We design her to the West Coast, our intention in sending her to you now being to assist in bringing up the saltpetre, but if your stock on hand will not allow you to send Us more than what may be brought by the Europe ships We then desire this ship may be loaded with good Rice.

The Captain tells us she was not sheathed at Bombay, a Work that We beleive will be necessary before she goes to the West Coast; Your Honour &c^t^. will be pleased to direct this matter to be considered and reported to you by some of the most able & experienced seafaring Men, and to order, therein as may be thought proper.

The Mercury & Fanny brought us y^r^. favours of the 30^th^. July & 9^th^. August & We are sorry you had no news of the Resolution when the last came away. To supply the loss of the Red Wood on the S^t^. Joan, We send you a further quantity on the Princess Augusta.

We have demanded of Captain Joy's Executor the Amount of the Bill on him for Current Rupees 207.12. We shall do our best to recover it but the Executor at present pleads the want of assets.

We have receiv'd the Jugdea Baffaes by the Fanny, and have only to add that We are

TO CHARLES SIMPSON ESQR.
CHIEF &CT. COUNCIL OF VIZAGAPATAM.

GENTLEMEN

Herewith is Duplicate of what we wrote you by our Honourable Masters ship George and having since taken into consideration how to get the cloth up from the Northern Settlements in December We have agreed that the George shall bring up that from Ingeram for which purpose you must order her thither [again] after the 4th. Decemr. as you can get her ready: Mr. Prince will have our directions to detain her there no longer than is necessary to take in the Bales as she must afterwards proceed from thence to Motopolee to take in some Chay Goods which will be ready there against her arrival: if Captain Taylor be unacquainted with that place and you have any good Syrang or Tandell with you that knows it we would have you send him on the ship. The Triton We beleive will be big enough to bring hither the remainder of the Maddepollam Goods and the Owners have promised to order her in thither for that purpose, as for the Vizagapatam Cloth We think you cannot fail of some good conveyance for that out of your own River and the sooner you send it after the full Moon is over the better.

We shall give you credit for the six old Guns put on board the Princess Augusta and Debt you for those Six and their Carriages you receiv'd out of her when We know the Price of them from Bombay.

The Gomastahs of some of your Merchants who had some cloth turn'd out here have tender'd us between nine and ten thousand Rupees which they say is the ballce. due from their Masters upon your books, in consequence of their contracts with Mr. Davis and Mr. Sanderson; This Money they ought to have made good at Vizagapatm.

but as they have pleaded that they could not dispose of the turned out Cloth till it was too late in the season to send the Money to their Masters, We have for this once indulged them in receiving the remainder of their [ballances] here, and you must not fail in your next to send us up a state of their accounts from the ballance of the Books in April 1738.

You may permit Lieutenant Crompton to come hither in December next if he desires it.

TO M^{R}. RICHARD PRINCE
RESID^{T}. AT INGERAM.

SIR

We have receiv'd your severals of the 22^{d}. Aug^{t}. and 2^{d}. September the last by the Princess Augusta that did not arrive here till the 22^{d}. Septem^{r}. We have receiv'd the Cloth you sent by her but cannot yet tell how it turns out for want of time and proper weather to overlook it.

As for that [which] may be ready in December we have order'd the Company's ship George to be sent to you from Vizagapatam as soon as she can be got ready after the full moon in December is over; You must keep her no longer with you than is necessary to ship off what Cloth you have ready, when that is done you must give the Captain orders to call in at Motopolee to take in about twenty Bales of Chay Goods and afterwards to make the best of his way hither.

M^{r}. Salomons having acquainted Us that it would be necessary you should come up hither to execute some writings receiv'd this year from England, that the same may be returned by the Jan^{ry}. ships, if you think as he does, you have our permission to come with your cloth, leaving the ballance of your Cash, & what other Effects the Company may have at Ingeram under the care of Mess^{rs}. Andrews and Arbuckle.

Just now is come to hand yours of the 9th. Ultimo and We observe what you write about the Batta or rather the discount of one and a half ℔ Cent insisted upon by the Nabob on the Madrass Pagodas and that the shroffs have made it a pretence to discount three & a half ℔ Cent when they receive them of the Weavers; We suppose this has referrence to some other money or coins that are current in your parts, and We shall be glad to know what they are whether Rupees or Pagodas, and what the different rates of Exchange are between both. Sir

We have receiv'd your severals of the 25th. August and 15th. September the last of which did not reach us till the 9th. Instant by the Brig. Rebecca and sloop Experience: The Cloth is but just landed so that we cannot yet advise you how it turns out in quality except that we are sorry to observe almost the whole parcell to have receiv'd damage on board the vessels.

We shall be glad to find your observation just that more Cloth is brought in from Septr. to January, than from January to Septemr.; but as We have in former Letters given you our reasons why We cannot wait for any so late as January, and as these two Vessels are arriv'd here too late to return to you, the owners of the Triton have promised to order her [to] Narsipore early in December to take in what cloth you may then have ready and you must not detain her in Expectation of any more.

By these Peons We send you as much Book Paper as we beleive they can carry dry.

No. 105

To the Hoñble Thomas Braddyll Esqr.
President and Governour &c. Council of Fort William.

Hoñble Sir & Sirs

Our last to your Honour &ct. was the 29th. September, which We sent by three Conveyances, the Princess Augusta, the Fanny and the Mercury, and the 10th. Instant we receiv'd your favour of the 17th. Ultimo.

We observe your intentions to send us Bales instead of the hundred tons of Saltpetre We requested to compleat the Tonnage of the ships to be Dispatched from hence, and our Letter of the 10th. Ultimo will shew you that it is also agreable to our own sentiments.

We observe also your apprehensions that you will be in want of Cash to carry on your next years Investment, and We shall therefore by the returning ships in January supply you with all that We can possibly spare from hence, what We sent you the beginning of this Year reduced our Cash so low that We have been obliged to sell part of the silver receiv'd by the Europe ships to carry on our current Business; Our sole dependance is on what sums may be offer'd for Bills of Exchange but how much that may be We cannot yet say with any certainty and therefore We can only repeat our assurances, that We will assist you to the utmost of our power.

We shall now desire Your Honr. &cts. sentiments upon an affair in which We think the Company's Interest a good deal concerned & wherein We beleive they have for some Years been considerable sufferers, We mean in the Coinage of so much of [silver] into Madrass Rupees; If We have a true knowledge of the Grants from the Mogul, they ought to pass equal with siccaes, but the experience of many years is convincing that has not been regarded, and a late Letter from Yr. Presidency desired that only one third of the Silver designed You might be coin'd into Madrass Rupees giving for reason that you apprehended some obstruction from the Government relating to their Circulation. An hundred ounces of standard silver coin'd in our Mint

produces to the Company Madrass Rupees 244. 15. 9 to which if we add a Batta of 10 ℔ Cent it is Current Rupees 269. 7. 8½. The same quantity of silver coin'd in the Country Mints produces Arcot Rupees 253. 12. if they [carry] a Batta of 8 ℔ Cent it is current Rupees 274. —. 9½ [Supposing the] computation of the Batta on both sorts to be true, the difference is Current Rupees 4. 9. 1 on an hundred ounces of standard silver, at which rate computing that We have coin'd 270758 ounces 12 penny weights this year, the difference to the Company [am]ᵗˢ. to Current Rupees 12,366. 5. 8½ a sum well worth the saving if it can be done without drawing any future Loss or Inconvenience upon them. It would be entering upon a needless and useless discussion to say how many of the Company's priviledges and Grants from the Mogul have been evaded by the arts of the Nabobs and Governing Moors, it is sufficient in the present case to observe that though they do not dispute our right to coin in our own Mints they have if We judge right render'd it rather a Loss than a benefit to the Company: It may indeed sometimes happen either by disturbances in the Country or from some other cause that it may be unsafe to trust our Bullion in the Country Mints, and in such case the priviledge of coining in our own Town may be of use and therefore necessary to keep up our right, but the coinage of fifty or an hundred thousand Rupees annually, may be sufficient to do that & for the rest we should be glad to receive your sentiments how far they concurr with ours on it's being more for the Company's Interest to Coin into Arcott than Madrass Rupees, though We are not as yet determined whether to do any thing therein till We receive the Company's Orders. Worsh^ll^. Sir & Sirs

Since our last we have receiv'd your severals of the 1^st^. and 20^th^. October and 2^d^. Instant, all that requires to be taken notice of therein is, that part of y^r^. Letter of the 20^th^. ultimo relating to the demands on M^r^. Cæsar's Estate and for those small sums which are due to His Taylor, Barber and for mending his Watch, We think they may be paid without the formality of an Oath and so may those for which his notes appear thô the List of Debts signed by Mess^rs^. Eyre and Floyer doth not shew clearly whether several of the Demands on His Estate for which the notes are referr'd to, are notes signed by M^r^. Cæser or only notes sent in by the Persons to shew the nature

of their demands, if the latter only be meant, the course of proceedings in these cases requires that they should verify their demand by oath and which therefore We ought not to dispence with, after the several demands on His Effects be paid Messrs. Eyre and Floyer must pay the Ballance into Your Cash, which when done advise Us thereof, [that they may] transfer it to account Current London.

We have no paragraphs [in our General] Letters from England this year relating to [your settlement] which require any particular reply from [you. We have] omitted to advise you in our former Letters [that our] Honourable Masters have directed that the ballance [of cash] remaining here and at all the subordinate [factories should] be monthly upon reading the Cash accounts [produced] before the Council, which you must take care [to comply] with for so far as it relates to you. It's also further directed that the Cash should be kept under thr[ee keys] by the Chief and two of the Council next in [standing] except such a running Cash as we shall [think] necessary to be plac'd in the Chiefs Hand, but as [you] are only supplied with Money from hence as your occasions call for it, if you comply with the order [for] producing the Ballance of the Cash monthly, We think the other needless, and that the care of it may be [only] with the Chief. TO THE WORSH^{LL}. JA^{S}. HUBBARD ESQ^{R}.
DEPUTY GOVERNOUR OF FORT S^{T}. DAVID.

WORSH^{LL}. SIR

Last night We receiv'd Yours of the 18th. and as you write us you have taken care that the Out Guards at Chemundalum, Trepopilore & Bandapollam are kept fully mann'd and well supplied with ammunition &c. We are willing to hope those will be sufficient to protect Your Bounds from any small straggling Parties, except that as Patcharee point is the only Outguard that may protect Tevenepatam [...] if that be tenable, We think it would be proper to have a Guard there, and the Guns remounted.

We receiv'd advice on Friday last [that some] days before, a body of twelve thousand Mora[ttas] were encamped at the Saunore Buncapore as tha[t is the] way leading to the southward by Steringapa[tam]. We hope they will keep that road without com[ing to] the sea coast; But our advices are very uncertain [about] their March, though We beleive it will depend [in some] measure upon the conveniency of Water, to inform [them]selves of which, We are told they have sent differ[ent parties], some tell us a Party of them design to enter th[...] by the way of Nellour, and those of any may [probably] visit the sea Ports, but We think the [...] must keep further in Land; Under this uncert[ainty in w^{ch}.] their designs are We wish the circumstances We a[re in] would permit us to send you such supplies of Men [as will] be sufficient to Man all your Works. But our Recruit[s] from Europe have been far short of what We had rea[son to] expect, and notwithstanding all our ships are arriv'd [our] compliment of Europeans is but barely [compleat.] You consider therefore what use Topasses & [Peons] can be of [to you] and We do hereby permitt you to entertain as many of such as you think may be necessary at this Juncture.

As we receive any further advices of the motions of the Morattas, which may be depended on We will not fail to advise you thereof. We are
